

ALL PEOPLES BANK LOBBIES WILL BE CLOSED, BUT DRIVE THROUGH LANES WILL BE OPEN.

At Peoples Bank, we are taking a number of proactive steps to protect our customers and employees while continuing to serve our customers and meet their financial needs.

In response to the ever changing COVID-19 epidemic, we will be limiting access to our bank lobbies to support social distancing and to follow recommendations from the Centers for Disease Control and Prevention.

Effective, Monday, June 29th, the lobbies at all of our locations will be closed until further notice, but our motor banks will be open.

Our doors may be closed, but your bank is still open.

At Peoples Bank, we are committed to continuing to meet your financial needs during this time of uncertainty, so we have the following options available:

- 1. Call 806-794-0044 or your local branch to set up an appointment with a bank representative. Masks are required for entry.**
- 2. For teller transactions, visit our drive through lanes. They are operating normal business hours.**
- 3. Utilize our online banking and mobile app to check balances, transfer funds and pay bills.**

It is important that our customers understand that Peoples Bank remains strong and we will continue our high level of customer service as we work through these unprecedented challenges together.

This too shall pass!
